GG HOSPITAL

Welcome!

After a pandemic induced pause, GANCON 2022 is materialising in a physical meeting with due precautions.

Covid 19 brought new challenges to our specialty that has been mostly met as care providers rose to the occasion and also new concepts and modality of care evolved. One of the major concerns had been safety, of the patients as well as the care givers. There had been new innovations and evolving concepts.

GANCON 2022 will focus on Safety in Anaesthesiology Practice. The scientific sessions, the PG Quiz and the associated events bring us again an opportunity to reconnect in person as we did in the past.

The Organisers look forward to welcoming you to the beautiful campus for a day long academic and social feast.
