

GOKULAM DERMA MINI UPDATES

BRUSHING UP THE GREY AREAS.....

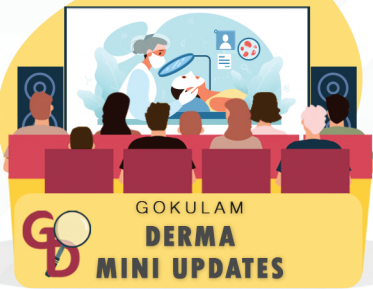

Hello postgraduates,

The warmest greetings from the organising committee of Gokulam Derma Mini Updates. A hearty welcome to all of you to this academic extravaganza hosted by the Department of Dermatology & Venereology, Sree Gokulam Medical College & Research Foundation. We promise you a series of meticulously planned and prepared academic sessions aiming at improving your clinical and practical dermatology skills. Right from basics of examination of a clinical case with live demonstration in a patient to the important differentials and thereby arriving at the correct clinical diagnosis, we will be emphasizing all the details in these sessions aiming at making you confident while appearing for a practical exam.

Hansen's disease is a nightmare for the majority of the Post graduates due to its broad clinical spectrum and paucity of cases in the majority of centres. So let's kick start this academic feast with a case of Hansen's.

We expect good participation and co-operation from the post graduates across the state for the successful completion of the series. Thank you and have a great day.

- Registration is free but mandatory for participation
- For registration, please whatsapp your details to 8547327163 on or before 16-12-2022
- E- Certificates will be provided
