(A Unit of Foundation of Non-Resident Indians)

**Approved by National Medical Commission, Affiliated to Kerala University of Health Sciences**

**Accredited by NABH & NABL**

---

## **Foreword**

Academic Policies and Procedures Manual serves as a reference to the faculty and students of Sree Gokulam Medical College and Research Foundation, in addition to the policies and procedures directed by the Kerala University of Health Sciences and the regulatory body for the medical colleges. It acts as a working guide for the faculty of this institution. In case of conflict between the policies or procedures in this manual and policies of the Kerala University of Health Sciences or National Medical Commission or the Government of Kerala or the Government of India, the latter takes precedence. All the policies are valid for a period of five years from the date they are signed. However, to keep the manual up to date, they shall be revised from time to time, to strike off the redundant policies and to add new policies. This compiled volume has the academic policies and practices that are in operation for sometime and were ratified in the College Council Meetings conducted in the year 2020 and 2024.
