Postgraduate Students Research Activities

Statement of Purpose

The institution encourages its postgraduate students to actively engage in research activities to enrich their learning experience and inculcate a scientific temperament.

Policy

All the postgraduate students shall fulfil the following activities during the course of their program:

- a. Design, conduct and report a research project in the form of dissertation / thesis, under the supervision of a guide, as a part of requirement for the completion of course. The project has to be completed and submitted to the University, six months prior to the date of final examination.
- b. Present a poster highlighting a case presentation in a state / national / international conference during the first year of their postgraduate program.
- c. Present the findings of a research project as an oral presentation in a state / national / international conference during the second year of the postgraduate program.
- d. Send an article for publication to any subject-related or preferably subject-specific medical journal during the third year of the postgraduate program.
- e. It is the responsibility of the guides to have their postgraduates submit the thesis / dissertation work for publication within a span of one year from its completion and University approval.

Applies to:

All the postgraduate students and the faculty of this institution.
