

Sree Gokulam Medical College & Research Foundation

(A Unit of Foundation of Non-Resident Indians)

Approved by National Medical Commission, Affiliated to Kerala University of Health Sciences

Accredited by NABH & NABL

Undergraduate Program Curriculum Policy

Statement of Purpose:

The policy provides a framework of the curriculum followed by the undergraduate MBBS program. As this is the excerpt from the MCI docket and the gazette, most of it has been marked in bold letters.

Policy:

Our institution currently follows the new **Competency Based Undergraduate Curriculum** for the **Indian medical graduate which is learner-centric, patient-centric, gender sensitive, outcome-driven and environment appropriate.**

Our aim is to make our graduates globally competent. Despite assuring the subject-based instruction and assessment, emphasis is on alignment and integration of the subjects. The curriculum shall be followed for all the students taking admission from the academic year 2019 onwards. As the students of 2019 admission progress through phase II, phase III part I and Phase III part II, the corresponding departments shall adopt and follow the competency based undergraduate curriculum.

Applies to:

All the departments engaged in undergraduate program and to the undergraduate students taking admission to Sree Gokulam Medical College and Research Foundation.
