

# Progenie 2019

**Department:** Anatomy

**Category:** CME

**Date:** July 20th 2019

**Venue:** Lecture Theatre

**Report:** The topic for the CME was Infertility followed by a workshop on Competency Based Undergraduate Curriculum: Developing guidelines for uniform anatomy teaching. The increased incidence of infertility rate among males and females in the recent past has motivated us to delve into the depths of infertility. To implement the new competency base curriculum for the 2019 batch MBBS students, afternoon session was dedicated for developing guidelines for uniform teaching of anatomy through a workshop.

**Number of Delegates:** 152
