World Breastfeeding
week: 1 - 7 August:
Theme for the year 2020:
'Support breastfeeding for
a healthier planet'

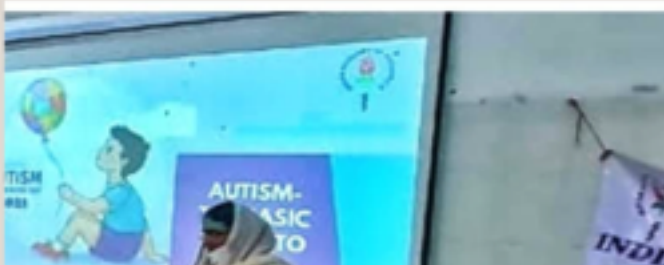

Our neonatology team under the guidance of Dr Diya took an awareness class for mothers about the importance of breast feeding and its advantages for the babies and stressed about the need of physical & psychological support to mothers from family members during the initial days of feeding.

Quiz during the
World Breastfeeding week
1 - 7 August: Theme for the year
2020: 'Support breastfeeding for
a healthier planet'

Neonatology Department also conducted a quiz competition for the postgraduates related to breast feeding by Dr Diya & Dr Aiswarya.

Out of 4 teams, Dr Fiby & Dr Veena emerged as winners.

Autism awareness day observed in
Department of Paediatrics

World Autism awareness day is observed every year on 2nd April every year. It aims to create awareness about this condition that can help children with autism lead a healthy life. This years theme was "Inclusion in the work place: challenges and opportunities in a post-pandemic world". Department of paediatrics observed autism day by conducting a talk on "Autism- the basic facts to know" which was chaired by Dr.Lalitha Kailas & Dr.Gopinadhan.

Down Syndrome Day

World Down Syndrome Day is marked each year on 21st March. 21st day of march was selected to signify the uniqueness of triplication(trisomy) of the 21st chromosome which causes down syndrome.

Every year on 21st March , world Down Syndrome Day is observed in our department to create awareness about Down Syndrome.
