

WORLD TUBERCULOSIS DAY 2025

As part of World Tuberculosis Day 2025 observance, the Department of Pediatrics, Sree Gokulam Medical College & Research Foundation conducted an Awareness Program on Childhood Tuberculosis on 24th March 2025 in the Pediatric OPD. Awareness talks were delivered by Dr. Lalitha Kailas and Dr. Swapna, focusing on early detection, prevention, and treatment of childhood TB. To further engage patients and caregivers, a role play was performed by 2022 batch MBBS students, effectively conveying key messages on Tuberculosis.

Following this, a Quiz Competition was organized for postgraduate students to enhance their knowledge and awareness about Tuberculosis. The quiz, conducted by Dr. Rino Rakesh and Dr. Nitha P Anil, featured questions on epidemiology, clinical aspects, national TB programs, and recent advances. Several teams participated with enthusiasm, and after a series of engaging rounds, Dr. Devi and Dr. Aishwarya emerged as winners. Both events were well-received and helped promote TB awareness.
